

Mandar S Raichalwar
Head Marketing - Yande Polymers

Yande Polymers commenced its business operations in the year 1983 under the dynamic leadership of its promoter, Mr Nandesh Yande. Under the able guidance of its promoter today, the company is a renowned name and has grown leaps and bounds since its inception.

Yande Polymers are the proud makers of high quality range of Moulded and Extruded Rubber Products with its presence in various industries. Our products have stood the test of time and are tailor made to precise shapes, ensuring accurate fit and function and at the same time minimizing leakages and enhancing efficiency in its performance. We are recognized for our products being durable, resilient, with resistance to chemicals and extreme temperatures. Our range of extruded products are versatile with intricate profiles and consistent quality. Our products are highly sought after for various industrial applications. We are renowned for our products offering high product performance, reduced maintenance and enhanced safety at all times. The raw materials required for manufacturing are bought by us from vendors who have tested the durability of their products on various parameters.
