

## Indian Wind Turbine Manufacturers Association and PDA Ventures to host the fifth edition of Windergy India in Chennai Again!

Indian Wind Turbine Manufacturers Association (IWTMA) in collaboration with PDA Ventures Pvt Ltd, a Bangalore-based Trade Fair Organiser is organising the 5th edition of India's sole comprehensive International Trade Fair and Conference for the Wind Power Sector, Windergy India 2023. Supported by the Ministry of Power, Ministry of New and Renewable Energy, Government of India, Niti Aayog and various other

industry associations such as Indian Wind Power Association, Wind Independent Power Producers of India and various other industry bodies, Windergy India is set to take place from 4-6 October 2023, at the Chennai Trade Centre, Chennai, India.

Windergy India 2023 will feature a large-format trade fair spanning over 10,000 sqm, showcasing participation of more than 200 exhibitors representing the complete wind energy eco system. This exclusive wind

sector event will include Original Equipment Manufacturers (OEMs), Component Manufacturers, and other leading equipment manufacturers such as Suzlon, Envision, INOX, LM Wind Power, NGC Transmission, Flender Drives, ZF Wind Power, TPI Composites, Hine Hydraulics, MT & T Limited, Jindal Steel & Power, and L&T. The trade fair will also feature country pavilions from Denmark, UK, Germany, and Spain, adding a global perspective to the event.

Alongside the trade fair, a two day conference themed on "Power of Wind 2.0 - Energizing the Future of India" will be organised. The conference will host special addresses, keynote speeches, panel discussions, and technology presentations revolving around key topics, including accelerating

decarbonization through wind energy, the business and financial economics of wind power, hybrid and storage solutions, technology and innovation, the Inflation Reduction Act (IRA) and Net-Zero initiatives, manufacturing and supply chain/export aspects, grid-planning integration with regulatory frameworks, the southern region's specific considerations, offshore development in India, and Tamil Nadu's unique context.

In addition to the extensive trade fair and conference, Windergy India 2023 will also host round table discussions involving key stakeholders from Spain, UK, Denmark, and the Tamil Nadu Guidance Bureau. These round tables will provide

an opportunity for vital discussions and collaboration among the most important players in the wind energy sector.

Windergy India 2023 aims to serve as a platform for knowledge exchange, business networking, and showcasing the latest advancements in the wind power industry. The event will bring industry leaders, policymakers, experts, and technology innovators together to explore strategies, trends, and opportunities in the wind energy sector.

We invite all stakeholders, professionals, and enthusiasts from the wind power industry to join us at Windergy India 2023 and be a part of the renewable energy revolution.
