VOLTAS

An Emerging Global from India in Engineering Solutions for Heavy Earth Moving Mining Machineries

About VOLTAS

Founded in year 1954, Voltas Limited is India's largest Air-conditioning company and world's premier engineering solution providers and project specialist for HVAC, Electro –Mechanical projects, Power projects, Water Management projects, Textile Machinery & Mining & Construction Equipment's. With revenues close to US$ 1 Billion, the company is owned by India's largest global enterprise TATA Group. Voltas Limited is managed by a professional board with Mr Noel Tata as its Chairman; Mr Pradeep Bakshi as its Managing Director & CEO along with Mr. Anil George as the Dy. Managing Director.

Mining & Construction Equipment Division

Mining & Construction Equipment business of Voltas is a 06-decade old business and has been a major player of Heavy Earth Moving Machineries in India. The Division has the credit of launching many a global brand of Heavy Earth Moving Machineries for Mining in India from MACK Dump trucks, International Harvester, Joy Mining Drills, Gallion Graders, Dressta Dozers, Terex-Unit Rig, Terex – O&K, Terex-Power screen, P&H, Hyundai, Letourneau, Detroit Diesel etc. The Mining & Construction Equipment Division of Voltas is headed by its Vice President, Mr. Sharad Thussu.

VOLTAS M&CE : An Ideal product support partner

Voltas M&CE has been very successful by being agile and proactive in its approach when it comes to business association with its customers and its principals. The Division specializes in host of Independent Value Added Services in Heavy Earth Moving Machinery Viz:-Turnkey Erection & Commissioning of Ultra large class Mining Machineries, Operations & Maintenance Contracts, Rental Contracts, Maintenance & Repair Contracts, Annual Service & Maintenance Contracts, Parts Cap Contracts, Reman & Rehabilitation Programmes, Turnkey Rebuilds & Repairs, Operator & Maintenance Crew Training as per OEM standards, Preventive & Periodic Maintenance programmes including Condition Monitoring, Depot & Rate Contracts for OE Spare Parts.

VOLTAS M&CE Global Operations:

Voltas M&CE Division through its group company TATA Moçambique Ltda is the preferred service partner for Mining Machineries operating at Moatize Opencast Coal Mining project of Vale Moçambique Limited. TATA - VOLTAS takes pride in working with Vale and maintain some of the largest fleet of Loaders, Excavators, Dump Trucks & Auxiliary Equipment's of diverse make viz CAT, Komatsu, Letourneau etc. The company has diversified its service offering to ICVL & Jindal Moçambique too. Voltas has strengthened its international presence in in Middle East countries by diversifying into Maintenance Services of Mining Machineries apart from its MEP & Air-conditioning business.

Unique Proposition:

At VOLTAS, Service Solutions is the backbone for sustenance and futuristic growth and in Mining Industry it is even more imminent as the equipments are of capital intensive in nature and hence service support to these equipments through outs its life cycle adds utmost significance. The host of Engineering Solutions offered by Voltas to Heavy production equipment's used in Mining delivers considerable cost savings to large mining companies who look at optimizing their revenues by rationalising cost.
