

Established in 1972, **PowerBuild Private Limited** has evolved into a global name synonymous with **reliability, performance, and innovation** in the field of power transmission products. With over **2 million+ units installed worldwide**, we proudly serve as the trusted backbone for some of the most demanding applications across core industries including cement, steel, mining, pharmaceuticals, power, food processing, and infrastructure.

At the heart of our success lies our passion for engineering excellence. Powerbuild Private Limited is a leading manufacturer and exporter of **Helical and Worm Geared Motors, Roloid Gear Pumps, Shaft-Mounted Speed Reducers, and Custom Drive Solutions**. Each product is a result of rigorous design,

PowerBuild Private Limited: Engineering Power, Enabling Progress

precise manufacturing, and a deep understanding of customer needs. Our gearbox and motor solutions are not just about torque or speed they are about delivering performance day after day, in even the most challenging conditions.

With **state-of-the-art infrastructure**, continuous investment in R&D, and a future-ready mindset, PowerBuild ensures that every product we deliver is built to last and engineered for efficiency. Over the years, we have expanded our product lines to include highly efficient

inline helical gearboxes, bevel-planetary drives, and heavy-duty VFD systems constantly pushing the boundaries of what's possible.

Being a part of the **Elecon Group**, along with renowned companies like Benzlers, Eimco Elecon, and EMTICI, strengthens our reach and resources across international markets. Today, our presence spans across multiple continents including Europe, Asia, Africa, and Australia, supported by a wide service network that ensures timely assistance and genuine care.

Our mission is clear: to

deliver products that empower industries to move forward with **minimal downtime, higher efficiency, and maximum value**. Every gear, every motor, every assembly we ship reflects our core values of **customer-centricity, quality, and environmental responsibility**.

At PowerBuild Private Limited, we believe that engineering is not just about machines, it's about the people they serve and the progress they enable. Our passionate team is constantly evolving, staying ahead of global trends,

and upgrading skills to create meaningful solutions for an ever-changing industrial world.

When you choose PowerBuild, you're not just buying a product, you're investing in a legacy of trust, a commitment to excellence, and a partner who understands the pulse of your industry.

Choose PowerBuild. Choose Reliability, Value, and Vision.
